

LATEST UPDATE FROM WCB UTILITIES – 20 May 2025

Please find below the last update from WCB Utilities. We are having some issues with Parish Council emails (especially to gmail addresses) bouncing back or going to junk if they have an attachment.

If you did not receive the last Community Alert (no 45 sent on Friday 17 May) please view it on our website news at www.loose-pc.gov.uk) Please try adding office@loose-pc.gov.uk to your safe senders if you find our messages in your junk folder.

On behalf of WCB utilities we wanted to provide you with an update. This week our teams will be carrying out the following.

Cripple Street - This week we will be replacing the second main along with renewing the services on the section team are working on.

Boughton lane - We will be replacing the 2nd & 3rd main along with the services on these sections.

Loose Rd - We will be replacing 3 mains: 2, 9" mains & 1, 6" along with any services on this section.

Our teams are working extremely hard and we are still working to remove the road closure on the evening of 1st June. I have seen that there has been concern around wording etc to signage for HGV's so please see some of the photos of what signage says.

Again we would like to thank you all for your continuous support and patience whilst our teams carry out these essentials works.

Kind regards

WCB Utilities

The Parish Council will continue to forward further information as we get it. We are aware there are now many large excavations outside properties and gas supplies are having to be turned off temporarily on occasions. WCB are trying to communicate with those affected. Do contact us if you have any specific issues and we can try to help and get in touch with the project manager directly.

Kind regards,

Nicky Bourne Clerk to Loose Parish Council
